MEMORANDUM FOR: The Director
The Deputy Director

FROM: John L. Helgerson
Director of Congressional Affairs

SUBJECT: Weekly Report

Intelligence Oversight Legislation: On a straight party line vote of 11-6, the HPSCI approved on 11 May a revised version of H.R. 3822, the Intelligence Oversight Act of 1988. It will now go to the House Foreign Affairs Committee, which plans to hold hearings on the bill.

The revised version has a definition of covert action that is a distinct improvement over the definition of covert action in the Senate bill. However, the bill continues to be objectionable to the Administration because of the requirement to notify Congress of a covert action within 48 hours without exception. A Republican effort to allow the President to delay notification beyond 48 hours was defeated on a straight party line vote. Another Republican proposal, which would criminalize the knowing and willful disclosure of classified information received pursuant to the Oversight Act, failed on a tie vote. Some Democrats supported the proposal (Wilson and Mavroules) and other Democrats stated that they agreed in principle with the proposal but needed more time to study it. It is likely the amendment will be offered again when the bill reaches the floor of the House.

Executive Appearances and Invitations

The DCI spoke to 160 White House Fellows alumni from all sections of the US on 5 May at the OEOB. The Fellows said that the DCI did a "superb job" and the question and answer period was well done. Colonel Klotz, on behalf of the White House Fellows, thanked the Director for his continued support for their program.

The DCI addressed the Georgetown University School of Foreign Service and Armed Forces Communication and Electronics Association (AFCEA) distinguished lecture series on Tuesday, 10 May at the Georgetown campus. Approximately 40 academicians, graduate students, CEO's and government leaders were in the audience. Georgetown professor and assistant program director Hal Bean reported that the attendees "universally appreciated the candor and the informative nature of the Director's remarks. He handled some tough questions on the coming arms agreement and exuded confidence and knowledge of difficult subjects." According to Professor Bean the Director's statements on secrecy were supported by the attendees. They appreciated the policy of accountability "that the Agency will not tell all its secrets but on the other hand will not play games either."

Public Relations Unit

The DCI Program for Deans on 2 May was a great success, according to feedback from the Deans who attended. We have received some good suggestions which we will study for the next running in December 1988. [] found his sessions in South Carolina--briefings to a group of business executives and a lecture at the Citadel--to be well received. Expanding our target audiences seems to be producing very positive results.
